

# POMONA

---

Health Indicators For People With Intellectual  
Disability In The Member States

2002/203496-00

Final Report

November 2002 - October 2004

The Pomona project was carried out during 2003 – 2004 by a working group with financial support of the European Commission, under the Health Monitoring Programme.

## Acknowledgements

The authors would like to acknowledge the contribution of those who participated in this project:

Firstly, to those individuals with intellectual disability, their family, friends and advocates for their guidance throughout this project.

Secondly, to those service providers, policy makers and other stakeholders for their contribution to the national consultation processes conducted in participating Member States.

Thirdly, to the participating Member State partners for their hard work and enthusiasm for this project.

Special thanks to those who contributed to the production of this report – specifically Lisa O’Farrell, University College Dublin and Professor Susan Roush, University of Rhode Island & visiting scholar University College Dublin.

The authors retain full responsibility for any inaccuracies that may inadvertently appear in this report.

October 2004

Christine Linehan, Senior Researcher, Centre for Disability Studies, University College Dublin, Ireland

Professor Patricia Noonan Walsh, NDA Professor of Disability Studies, Centre for Disability Studies, University College Dublin, Ireland

Dr. Henny van Schroyen Lantman -de Valk, Dept of General Practice, University of Maastricht, the Netherlands

Professor Mike Kerr, Welsh Centre for Learning Disabilities, University of Wales, College of Medicine, United Kingdom

## Table of Contents

1. People With Intellectual Disability in the Member States.....	1
1. 1. Background.....	1
1. 2. Definitions of Intellectual Disability.....	1
1.2.1. The American Association of Mental Retardation (AAMR).....	2
1.2.2. DSM IV: Diagnostic and Statistical Manual of Mental Disorders, 4 <sup>th</sup> Edition (1994).....	2
1.2.3. ICD 10: The International Statistical Classification of Diseases and Related Health Problems (1992).....	3
1.2.4. Jacobson & Mulick, American Psychological Association (1996).....	4
1.2.5. The International Classification of Functioning, Disability and Health (World Health Organisation, 2001a).....	4
1.2.6. Swedish Model of Classification (Kylen, 1974, 1981, 1985).....	5
1.2.7. Administrative Definition (as outlined by Gustafsson, 2003).....	6
1.3. Prevalence of Intellectual Disability.....	7
1.3.1. Extrapolated prevalence estimates of intellectual disability.....	7
1.3.2. Population based prevalence estimates of intellectual disability.....	8
1.3.3. Variation in prevalence estimates.....	10
1.3.4. Current international efforts to estimate prevalence.....	11
1.3.4.1 Sample Surveys.....	12
1.3.4.2. Census.....	12
1.3.4.3. Administrative Records.....	13
1.3.5. Current national efforts to estimate prevalence.....	13
1.3.5.1 Ireland: Pilot prevalence study.....	14
1.3.5.2 United Kingdom: Pilot prevalence study.....	14
1.4 Conclusions.....	14
1.5 References.....	15

2. Health Inequality and Health Disparity among People with Intellectual Disability .....	18
2. 1. Health Inequality and Health Disparity.....	18
2. 2. Evidence of Health Inequalities and Health Disparities among people with Intellectual Disability.....	19
2.2.1. Evidence from Special Olympics.....	19
2.2.2. Evidence from the US.....	19
2.2.3. Recent review of literature.....	20
2.2.3.1 Special Health Care Needs .....	20
2.2.3.2 Health Promotion Needs for People with Intellectual Disability .....	22
2.2.3.3. Unmet Needs for People with Intellectual Disability .....	23
2.3 Conclusions.....	24
2.4 References .....	24
3. Health Indicators for People with Intellectual Disability .....	29
3.1. Health Indicators as a Method to Measure Health .....	29
3.2. European Commission’s Health Monitoring Programme .....	30
3.2.1. The European Community Health Indicators Project (ECHI).....	31
3.3. Health Indicators for People with Intellectual Disability.....	32
3.3.1. Health Indicators for People with Developmental Disability in the United States .....	32
3.3.2 European Community Health Indicators for People with Intellectual Disability.....	33
3.4 Conclusions.....	34
3.5 References .....	34
4. POMONA – Method.....	35
4.1 Background.....	35
4.2 Project Partners.....	35
4.3 Methodology utilized for each aim .....	36
4.3.1. Aim 1: Determining what health indicators, if any, are in place across the Member States.....	36

4.3.2. Aim 2: To Consult on practices, referring to scientific evidence about optimal indicators for this population and Aim 3: To propose a set of health indicators for people with intellectual disability across the Member States .....	37
4.3.2.1. Outline of Collaborative Methodology Timeline .....	37
4.3.2.2. Collaborative Meetings.....	38
4.3.2.2.1. 1 <sup>st</sup> Steering Group Meeting, Maastricht, November 2002 .....	38
4.3.2.2.2. 1 <sup>st</sup> All Partner Meeting, Montpellier, February 2003 .....	39
4.3.2.2.3. 2 <sup>nd</sup> Steering Group Meeting, Villepinte, April 2003.....	40
4.3.2.3. The Consultation Process, Summer 2003.....	40
4.3.2.2.4. 2 <sup>nd</sup> All Partner Meeting, Jerez, September 2003 .....	45
4.3.2.4. Draft List of Indicators, September 2003 .....	46
4.3.2.5. Draft Review of Literature on Indicators.....	47
4.3.2.6. Draft List of Indicators, February 2004.....	47
4.3.2.2.5. 3 <sup>rd</sup> Steering Group Meeting, Rome, 5-8 February 2004.....	48
4.3.2.2.6. 3 <sup>rd</sup> All Partner Meeting, Troina, Sicily, 15 <sup>th</sup> –18 <sup>th</sup> February 2004.....	50
4.3.2.7. Final List of Indicators, September 2004 .....	51
4.4 Dissemination Strategy.....	52
4.5 Conclusion.....	54
5. POMONA – Results .....	55
5.1. Aim 1 Results: Determining what health indicators, if any, are in place across the Member States.....	55
5.1.1. Literature pertaining to health indicators for people with intellectual disability .....	55
5.1.2. Health indicators employed for the general population .....	55
5.1.3. National population statistics regarding intellectual disability.....	56
5.1.4. Health interview and health examination surveys at Member State level that may contain information regarding the health of people with intellectual disability .....	57
5.1.5. Data at Member State level regarding POMONA health indicators for people with intellectual disability.....	68
5.1.6. Conclusion: Determining what health indicators, if any, are in place across the Member States that examine the health of people with intellectual disability.....	74

5.2. Aim 2 Results: To consult on practices, referring to scientific evidence, about optimal indicators for this population. ....	76
5.3 Aim 3 Results: To propose a set of health indicators for people with intellectual disability across the Member States.....	77
5.3.1. Literature Review of Health Indicators for People with Intellectual Disability.....	78
5.3.1.1. Indicator 1.1. Prevalence.....	78
5.3.1.2. Indicator 1.2. Living Arrangements.....	84
5.3.1.3. Indicator 1.3. Daily Occupation.....	86
5.3.1.4. Indicator 1.4. Income.....	95
5.3.1.5. Indicator 1.5. Life Expectancy.....	98
5.3.1.6. Indicator 2.1. Epilepsy.....	103
5.3.1.7. Indicator 2.2. Oral Health.....	107
5.3.1.8. Indicator 2.3. Body Mass Index.....	111
5.3.1.9. Indicator 2.4. Mental Health.....	114
5.3.1.10. Indicator 2.5. Sensory Impairment.....	118
5.3.1.11. Indicator 2.6. Mobility.....	126
5.3.1.12. Indicator 3.1. Physical Activity.....	129
5.3.1.13. Indicator 3.2. Challenging Behaviour.....	133
5.3.1.14. Indicator 3.3. Psychotropic Medication Use.....	143
5.3.1.15. Indicator 4.1. Hospitalisation & Contact with Health Care Professionals.....	146
5.3.1.16. Indicator 4.2. Health Check.....	148
5.3.1.17. Indicator 4.3. Health Promotion.....	154
5.3.1.18. Indicator 4.4. Special Training for Physicians.....	156
5.3.2. Operationalisation of Health Indicators for People with Intellectual Disability.....	162
5.3.2.1. Indicator 1.1. Prevalence.....	163
5.3.2.2. Indicator 1.2. Living Arrangements.....	166
5.3.2.3. Indicator 1.3. Daily Occupation.....	167
5.3.2.4. Indicator 1.4. Income.....	168

5.3.2.5. Indicator 1.5. Life Expectancy.....	169
5.3.2.6. Indicator 2.1. Epilepsy.....	170
5.3.2.7. Indicator 2.2. Oral Health.....	172
5.3.2.8. Indicator 2.3. Body Mass Index.....	173
5.3.2.9. Indicator 2.4. Mental Health .....	174
5.3.2.10. Indicator 2.5. Sensory Impairment.....	175
5.3.2.11. Indicator 2.6. Mobility.....	176
5.3.2.12. Indicator 3.1. Physical Activity .....	177
5.3.2.13. Indicator 3.2. Challenging Behaviour.....	179
5.3.2.14. Indicator 3.3. Psychotropic Medication Use .....	181
5.3.2.15. Indicator 4.1. Hospitalisation & Contact with Health Care Professionals.....	183
5.3.2.16. Indicator 4.2. Health Check .....	186
5.3.2.17. Indicator 4.3. Health Promotion.....	187
5.3.2.18. Indicator 4.4. Special Training for Physicians .....	189
6. CONCLUSIONS.....	190
7. APPENDICES.....	192
7.1 Appendix A – Summary Minutes Steering Group Meeting 1, Maastricht .....	193
7.2 Appendix B – Summary Minutes All Partner Meeting 1, Montpellier.....	194
7.3 Appendix C – Summary Minutes Steering Group Meeting 2, Villepinte .....	195
7.4 Appendix D – Guidelines for Partners’ National Consultation.....	196
7.5 Appendix E– Summary Minutes All Partner Meeting 2, Jerez.....	200
7.6 Appendix F – Summary Minutes Steering Group Meeting 3, Rome .....	201
7.7 Appendix G – Minutes All Partner Meeting 3, Troina .....	202
7.8 Appendix H – Survey of HES & HIS surveys in participating European Member States .....	203
7.9 Appendix I – Survey of recent Member State data .....	228
7.10 Appendix J – Sample of Health Checks for People with Intellectual Disability.....	327
